How To & Troubleshooting Guide

Conference Attendee Online Portal

Conference Attendee Online Portal

This will be used to view technical sessions!

Logging In for the First Time

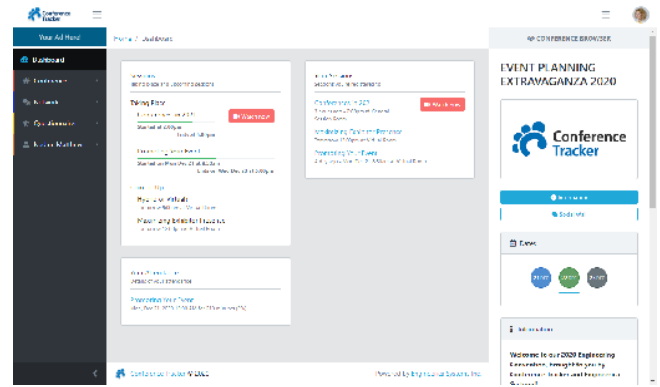

After visiting www.conftrac.com, you will be asked for the email that is tied to your Conference Attendee account. This is the email you used to register for this event. After entering this information, the workshop you are registered to will be matched with your email and you will be emailed a password. After entering your password, you will be taken to your Attendee Dashboard.

Attendee Dashboard

Once you have logged in to your account, you will be taken to your Attendee Dashboard. The dashboard is divided into three sections:

- **Dashboard Screen:** In the middle of the screen you will see your main Dashboard screen. Here, you will be able to see sessions, your recorded attendance, and much more! The information will be displayed in a set of organized widgets:
 - **Sessions:** In the Sessions widget, you will be able to view all sessions. To view the session, click the Watch Now button next to their title.
 - **Your Sessions:** This widget will show the sessions you are registered for, which is all of them!
 - **Your Attendance:** After you have participated in one or more sessions, the Your Attendance widget will display a summary of your session attendance. You will also be able to see which Quizzes are available for you to take in this widget.
- **Navigation Menu:** On the left-hand side, you will see your Navigation Menu. This menu will allow you to navigate throughout the entire conference space to view other sections such as Sessions, Attendee List, and Sponsors.
- **Conference Browser:** The Conference Browser, located on the right-hand side, will display additional information throughout the event space. Always keep your eye on this section, as it will dynamically change as you navigate through the workshop!
 - **Social Wall:** Use this to leave messages for your fellow attendees. Recommend sessions or just say hello!

Streaming a Session

While on the Attendee Dashboard, sessions will have a green icon next to the session's name labeled Watch Online. When clicked, you will be taken to the session's stream page. Here, you will be shown some information about the session. Clicking on the button will check you into the session and display the video stream and the session's social feed, displayed on the right. You will be able to watch the session and interact with other attendees simultaneously! Once you leave this window or go to another session, your sign out time will be recorded, properly ensuring your attendance. Please note you must be present for at least 90% of the webinar, or 40.5 minutes of a 45 minute session AND pass the brief quiz at the end.

Conference Attendee Online Portal Continued

If your desktop setup has multiple screens we suggest going down to one screen or a laptop to watch the session. Working off of a second screen and even a cursor on a second screen will negatively affect your attendance percentage.

Post Session Quiz

Completing and passing the post session quiz is mandatory to receive credit. Quizzes will only be triggered once you have viewed a session. You can access the quiz in two places, the session streaming screen and the Attendee Dashboard. If you do not immediately take the quiz, please access it from your Attendee Dashboard.

Quiz on Session Streaming Screen

The quiz can be accessed via a desktop/laptop browser, or a tablet/phone web browser. Quizzes are NOT accessible in the attendee app. While viewing the session you will see a blue button labeled Take Quiz. This can only be accessed once you have watched at least the required 90% of the session. Once you are finished with the quiz, you will be automatically graded. If you fail, you may retake the quiz up to three times. If you still have not passed the quiz after your third attempt you will need to rewatch the entire session. Please contact One Water to reset your attendance if you need to rewatch the session.

There are two errors you may encounter.

1. *“You haven’t reached the minimum required presence minutes to complete this quiz. Please wait a few minutes.”*

This error occurs when you are trying to access the quiz too early. Please wait a few minutes and you can reattempt to access the quiz. If you have watched the entire session, please follow instructions on the next page to take the quiz on the Attendee Dashboard. It may take 5 minutes for the quiz to generate.

PLEASE NOTE: Even if the video played until the end you may not have met the 90% requirement if you skipped portions of the video, you minimized the video window, or you are working on more than one screen and the video is not on your main screen and/or you are multitasking. The program will not recognize you watching the session in these conditions.

2. *“You haven’t signed-in to this session.”*

- This most often happens if you just began the session. It may take a few minutes for the program to create a “Sign In” log for you. Just wait a few minutes and this error will stop occurring.
- You may also get this error if you are working off multiple screens and the video is not on your main screen.
- This error may occur if your session has timed out. Please refresh your screen and the program will start the presentation where you left off.
